Warranty

BRP limited warranty covers the watercraft for one year.

Feature Highlights

Exclusive to Sea-Doo®, iBR® stops the watercraft sooner and provides more control and maneuverability at low speeds and in reverse.

Ergonomically designed for comfort and great looks while providing ultra-plush seating for three. Permits rear-facing spotter for watersports.

Makes boarding from the water easier and quicker.

Allows riders to easily find the ideal trim setting for different water conditions.

Both Rotax 1503 engines have been tested and proven to be incredibly reliable while the 1503 NA is the most powerful, naturally aspirated engine on a Sea-Doo®.<sup>1</sup>

Two exclusive colorations available.

Trailer (optional)

- Fully adjustable carpeted bunks (side-to-side/front-to-back) allow you to change bunk angles to fit all watercraft.
- Custom frame design requires less water to load and unload watercraft.
- Sealed maintenance-free wheel bearings for added peace of mind.
- All models are available with a galvanized frame for extended life in all weather conditions or in a painted black version, with or without Marine Jack.
- Move I Extended 1250 and Move II are also available in an aluminum frame, that delivers better corrosion resistance to significantly extend life of trailer.

Aluminum MOVE II

Aluminum MOVE I Extended 1250

\*Electronic brake, neutral and reverse.
